

PLAYER MANAGEMENT PATHWAY

Football is built on overlapping relationships. Hence, at AUSC; guided CSA and BC Soccer Player Pathway Framework; have developed the following structure to manage internal player movement, with emphasis focused on player growth and gradation. Creation of “Player Pots” (no permanent set teams) at U5 to U11, affords AUSC coaching staff on going player assessment on a weekly basis. Players rotate and train in small pots with similar ability mates within the same age range.
